WHAT MAKES US DIFFERENT?

For starters, we make **ALL** our dry ice in-house.
We are **NOT** resellers of stale product.

Most people don't realize that much of the dry ice sold in Ontario comes from cross-border locations or from miles away through shipping companies with multi-day transport. As a result, the quality can be degraded, quantities can be questionable, and it can be overpriced due to shipping and taxes.

At Dry Ice Solutions, we're fixing that, with:

- Locally made, fresh, consistent dry ice
- A transparent process stating how, when, and where it was made
- Honest weights and deliveries

You see, we're not "just" sellers of Dry Ice, we're blasters, too... and we want to help other contractors succeed. We do this with excellent product, but also with training, guidance and honest supply.

TRY US OUT.
You'll see the difference.
