

DRY ICE BLASTING...

Your Equipment Cleaning

SECRET WEAPON

Dry ice blast cleaning is a cutting-edge process widely used in manufacturing sectors for its unmatched efficiency, safety, and cost-effectiveness.

Using high-pressure compressed air to propel dry ice pellets at supersonic speeds, it cleans through thermal shock, kinetic energy, and sublimation (the direct transition of dry ice from solid to gas).

THIS INNOVATIVE METHOD OFFERS SEVERAL KEY BENEFITS:

IT'S EASY...

- ✓ Residue-Free Cleaning
- ✓ Adjustable Aggression and Versatile
- ✓ In-Place Cleaning

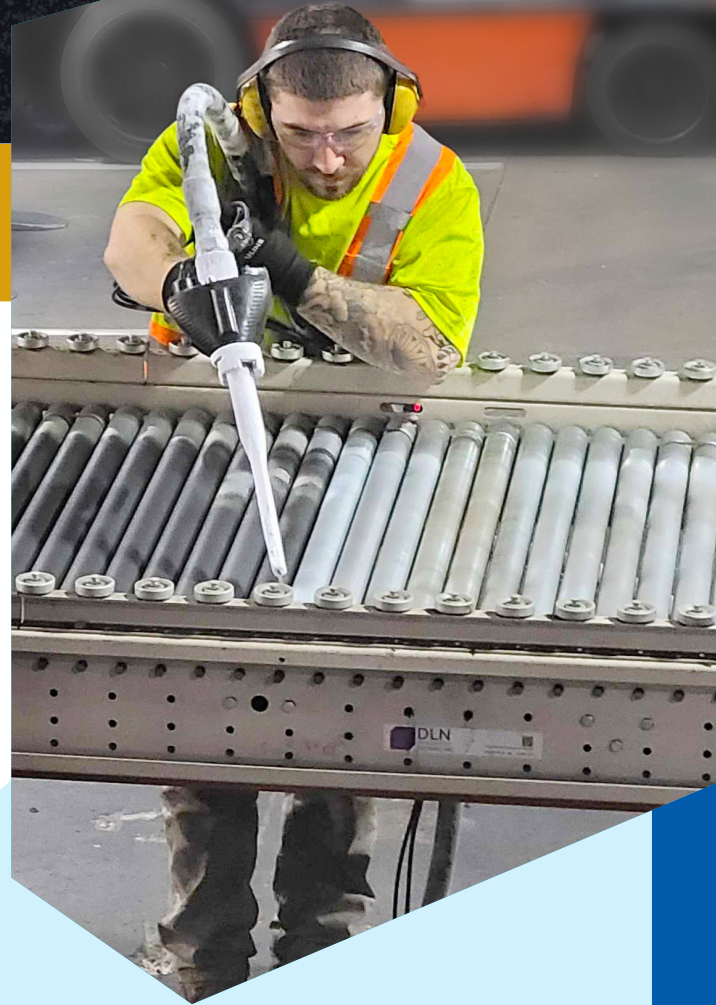

IT'S SAFE...

- ✓ Environmentally Friendly
- ✓ Perfect for Sensitive Equipment
- ✓ Safe for Electrical Components

IT SAVES MONEY...

- ✓ Enhanced Equipment Efficiency
- ✓ Low Risk, High Value, Fast ROI
- ✓ Service Contracts Available

With its eco-friendly approach, non-abrasive nature, and versatile cleaning intensity, **DRY ICE BLASTING HAS BECOME THE GOLD STANDARD FOR INDUSTRIAL CLEANING**, delivering exceptional results across diverse manufacturing sectors.

THREE Different Ways to Use Dry Ice Blasting

1 Book our SZB Mobile Service Crew
Our team of 2-3 technicians comes to your facility. A Crew Leader will speak to your Maintenance Manager or Supervisor first to do a needs assessment, and possibly book a pre-maintenance walk-through if necessary.

2 Equipment Rentals Available
Some prefer this option for semi-regular maintenance. One of our Certified Crew Leaders will train your maintenance staff and oversee the process.

3 Equipment Sales and Training
Both the dry ice making machines and the cleaning equipment are available for larger clients who may wish to bring the process into their own in-house maintenance operations.

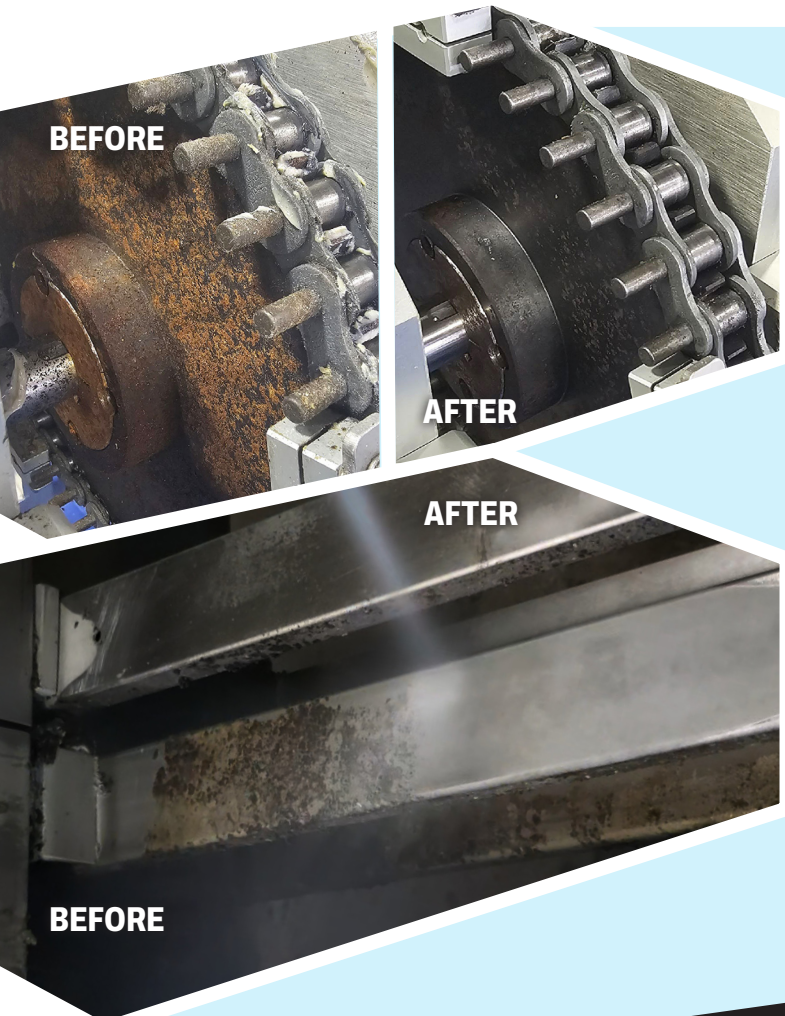

THE IMPORTANCE OF “GOOD ICE” to the Dry Ice Blasting Process

In our early days, we were met with frustration at the inconsistent quality of the dry ice we were getting from third party suppliers. **You see, the dry ice blasting process is VERY MUCH DEPENDENT upon good quality ice, and using it quickly, as its effectiveness degrades over time. The solution was right in front of us... MAKE THE DRY ICE OURSELVES**, allowing us to control the quality, and to use it quickly.

So we created Dry Ice Solutions, a sister company to SubZero Blasting Inc., founded in 2015. Both have successfully grown into award-winning and reputable businesses serving clients province wide. The shared purpose is simple...

We are committed to providing reliable, affordable, and innovative dry ice solutions that meet the diverse needs and expectations of our clients.
